Description

Aiphone JO Series App Enabled Video Entry System. Single Flush Mounted Door Station and Single Monitor

**Operation**

- This boxed set contains all the equipment needed for an app-enabled entry security system. A call from the flush mounted video doorbell rings the on-site monitor and up to eight smartphones or tablets. After answering the call, you can see and speak with your visitor then easily unlock the door with the touchscreen monitor or using the slider button on the app
- Our unique hardwired monitor ensures calls can be answered even when the internet is down or slow and the mobile app ensures you stay connected when you're on the go. The monitor features built-in memory that can be manually activated to record video from the doorbell or set to automatically record all calls. Expand storage using the MicroSD card slot and view recorded calls on both the monitor and the app

**Features**

- Box set includes all you need for an app capable video intercom system
- Answer and open your door from the on-site master or your mobile device
- Connect up to 8 smartphones or tablets per system
- On-site monitor ensures calls get answered or recorded
- Store calls with no added fees using onboard memory
- Adding a MicroSD card to the on-site monitor increase call storage
- Watch recorded calls from the on-site master or on the mobile app
- Large 7" touchscreen provides crisp, clear detail of your caller
- Stainless steel vandal resistant surface mount video door intercom
- Video door intercom automatically activates white LED lights to see clearly at night
- Replace standard doorbells to add the security of seeing and speaking with visitors
